

Get 4 free LED bulbs and save during our light bulb swap

Brighten your life! Bring up to 4 incandescent light bulbs to the light bulb swap and, in exchange, we will give you up to 4 LED bulbs at no charge.

ENERGY STAR® certified LED light bulbs last 10 – 25 times longer than standard incandescent light bulbs. They provide the same brightness, or lumens, but use less energy, or watts. That means you use less electricity and your electric bill goes down.

Date: October 30, 2016

Time: 10am – 2pm

Where: Walmart

970 Tarringford Street, Torrington

Energize ConnecticutSM representatives will be at the event to answer your questions about LED lighting and more. You can even sign up for the award-winning Home Energy SolutionsSM program during the swap and get an additional free LED bulb!

Schedule and participate in Home Energy Solutions between September 1, 2016 and November 30, 2016 and get a FREE advanced power strip!

* LED bulbs are available while supplies last. Bulbs at swap are 60-watt equivalent only. Receive one (1) LED bulb for every incandescent bulb brought to swap up to four (4) bulbs total. Receive one (1) LED bulb when you sign up for Home Energy Solutions. Eversource electric customers only.

**Empowering you to make
smart energy choices**
